The College strives continuously to achieve excellence in all the spheres of academic activities

Theme of Conference

The conference, founded on four pillars namely research, commerce, management and economics along with Excellency, aims to bring innovative academics, researchers, practitioners, scholars and budding students on common platform to present and discuss the Excellency in research with a view to foster research relations between academic institutions, universities and industries, Government Departments to gear up the growth and universal development at a faster rate.

Research can be described as the search for knowledge, or as any systematic investigation, to establish novel facts, solve new or existing problems, prove new ideas, or develop new theories, usually using scientific method. Excellence is the performance that is qualitatively and decisively superior to satisfactory. However, it is recognized that excellence is not an absolute quality, measured by simple objective criteria, but rather it requires the judgement by academic peers of the evidence provided. Excellence in research involves work of outstanding originality, work that has inspired others and affected the research agenda, competitive grant winning, especially as Principal Investigator and external recognition of research quality.

Conference Objectives

- To provide a platform for interactive sessions between researchers, practitioners, policy makers and academicians from commerce, management, economics across the globe.
- To provide an opportunity for exchange of research excellence ideas with a hope to develop solutions to the current issues that hinder the momentum of economic growth and development
- To provide an opportunity to delegates to learn about Excellency in research and global experiences
